

Barrel Clamp

Parts as per individual diameter and dimension can be made available.

- High Torque clamp.
- Less space required compared to T bolt clamp.
- Suitable for steel pipes for Exhaust Systems.
- Simple tightening by bolt rotation.

Example for Ordering Code

Design Type Ordering Code : BC

Ordering Code	Material Grade Option
M01	All Parts : SS 301 / 304
M05	Band : SS 201 / 202 Barrel & Bolt : Plated Carbon Steel
M17	Band : SS 301 / 304 Barrel & Bolt : Plated Carbon Steel

Ordering Code	Band Width (BW)
B06	Band : 20 mm max.
B14	Band : 25 mm max.

One Ear Clamp

Parts as per individual diameter and dimension can be made available.

Ref. standard: SAE J1508 Type "J"

- Economical solution for demanding applications.
- Uniform compression for soft or hard hoses.
- Available both in carbon & Stainless Steel.

Example for Ordering Code

Design Type Ordering Code : OE

Ordering Code	Material Grade Option
M01	SS 304
M11	Plated Carbon Steel
M19	Galvanized Steel

Ordering Code	Band Width (BW)
B12	Band : 7.2 mm (0.28")
